November 2010 Patients of the Month — They Need Homes!

Our Pets of the Month for November are these four adorable felines who have been abandoned on the doorstep of Suffield Veterinary Hospital. *Please help us to find them good homes!*

"Slate" (of course these names can be changed) is the long haired gray cat. He is about 3 years old, a neutered male, quick to purr, very quiet and gentle. We found him in a box on our doorstep several months ago.

"Dew Drop" is the white girl with the calico markings on her forehead and tail. She is spayed and was abandoned about a month ago. The shyest of the bunch, she is slower to come visiting, but once she warms up is quite affectionate.

Both Slate and Dew Drop were quite heavy when they were left at SVH, but they've been on a diet and exercise program and are becoming quite fit.

The two calico kittens are "Twix" and "Snickers" and have been with us since they were about 8 weeks old. These girls are hilariously entertaining as they romp around playing with each other, and we hope they will find a home together.

We encourage anyone out there considering getting a cat to contact us for one of these darlings. They will be spayed and neutered, vaccinated and free of parasites.

As always, we'd like to thank Enfield Motophoto for taking all of these wonderful portraits, which help make these cats IRRESISTIBLE!
