

Suffield Veterinary Hospital October 2025 Patients of the Month

August brought a bumper crop of new pets for Suffield Veterinary Hospital staff members! Of course anyone working with us has a passion for animals, and part of that passion leads to sharing our homes and hearts with a wide variety of furry cuddle-bugs. Here are a few we're lucky enough to see regularly!

on the shelves, or curled up in a basket. When she's not exploring, she's getting cozy with her human or one of her canine housemates.

Meet Tchotchke, a 6-month-old exotic shorthaired kitten who's already stolen the hearts at SVH! Owned by one of our receptionists, Tchotchke lives up to her name with a knack for finding the most random spots to hang out — whether it's perched on top of the kitchen cabinets,

making Russell a perfect outdoor companion. With his boundless energy, big heart, and curious mind, Russell is ready to discover the world right alongside his mom!

Meet Russell, the newest family member of one of our Veterinarians! He's a spirited German Shorthaired Pointer named after the adventurous wilderness explorer from the movie *Up*. True to his name, Russell is always eager to learn, explore, and embark on new adventures. This energetic breed is known for its sharp intelligence and natural bird-hunting instincts,

Meet Twiggy, a long-haired mini dachshund puppy who is black and crème, owned by one of our veterinary technicians. He loves to show everyone his belly, because there is nothing better than a belly rub! He is a very good boy who always tries to listen, but sometimes his friends at work are more important. We have loved having him as our new addition as he brings the biggest licks of love and the silliest hops!

Meet Tweak, new furry friend of one of our veterinary technicians. This spunky, high-energy domestic longhair kitten was rescued from the streets of Connecticut and is now thriving as a happy, healthy kitten. True to his name — borrowed from the energetic "Tweak" character on *South Park* — he's a little whirlwind of curiosity and play. Like a true "sour patch kid," Tweak is sweet one moment and mischievous the next, keeping his mom on her toes. Domestic longhairs like Tweak often have playful, unpredictable personalities, making them endlessly entertaining companions. His mom wouldn't have it any other way!
